About Us

Dawn Scientific Inc. A woman small business is situated in the heart of New Jersey. Dawn Scientific has evolved as a fast-growing Distributor, Manufacturer, Scientific and Channel Partner, that has steadily built its products with quality portfolio. Our journey began as a lab chemical and consumables distributors in 1978. We have since increased our offering to over thousands of products. Our product categories include Pharmaceutical, Biopharma, Chemical, Cosmetic, Contract research industry, Dietary & Herbal supplements' industries, and many other commercial industries. Products include chemicals, solvents, standard solutions, laboratory consumables, instruments/equipment, and safety & hygiene products.

Our entrepreneurial spirit comes from our keenness to explore new markets and expand our product portfolio to meet growing customer requirements. We have thousands of happy customers across industries in domestic and international markets. Our strong distribution network and sales force team as lab chemical suppliers enables us to reach customers across USA and worldwide. We are confident of offering new and innovative products to our customers on an ongoing basis through our sales channel. We live by our motto of consistently providing customers with high-quality products and exceeding their expectations. We care for our employees, society, and the environment.

Vision

To be the market leader in the Laboratory Chemicals, Laboratory Consumables, and Raw Materials domain, with a global perspective by exceeding customer expectations in quality and service via attaining operational excellence in manufacturing, total quality management, safety & supply chain.

**40+**

Years of experience

5000+

Satisfaction (%)

Contribute to the Society

We believe that our responsibility as a member of society to create value in society through improvement in health care, education and caring for environment.

We have core experience, young dynamic team for various functional departments like quality control, quality assurance, production, packaging, sales and marketing, account provides best quality services on time.

Dawn Scientific operations meet the most stringent environmental, health and safety standards. We comply with the highest quality standards and are an ISO 9001:2015 certified company. All our products are manufactured in compliance of Good Manufacturing Practices and facility, all offered with complete documentation support as under:

- Certificate of Analysis
- MSDS
- TSE/BSE, GMO, Melamine declarations
- Vendor Qualification Questionnaire
- Other document

ChemieR is innovative and unique product range in laboratory chemicals which includes organic reagents, inorganic reagents, and solvents. ChemieR brand is here to meet your budget whilst not compromising on the quality. Order our ChemieR brand and never go back to using any other brands

Pack Size : 100g, 500g, 1kg, 2.5kg

ChemieR Series offer a variety of high purity salts and solutions of alkali metals, alkaline earth compounds, perchlorates, heavy metals, rare earths, transition metals, silver/precious metals, and triflates. ChemieR covers wide range of inorganic chemicals, specializing in low moisture and low trace metal grade materials.

Dawn Scientific is Introducing “TriStain” indicators & Biological Stains series, where color differences aid in identification. “TriStain” Indicator offers a range of reagents suitable in various titrations covering a large range of high-quality indicators for observing chemical reactions. Our products are available in different packaging sizes to allow you to get all the indicators for your specific purposes from a single source.

“TriStains”, Biological Stains that offer range of stains used in Histology, Cytology, microbiology and Hematology laboratories. TriStains meet the highest quality standards and give excellent color performance of desired components of cells and tissue in life science laboratories. TriStain series products are carefully tested to ensure accurate, reliable, and reproducible results.
